Radical Spirit to the South.

"They all say unto him, let him be crucified.

And the Governor said: Why, *what evil hath he done?* But they cried out the more, saying: *Let him be crucified!—Matthew, chap.* 27, *v.* 22, 23.

The Spirit of Radicalism.

Several weeks ago an incident occurred on the State Road that illustrates, strikingly, the bad bias of Radicalism to unlicensed tyranny.

A soldier had received transportation from Dalton to Selma, on the Dalton, Rome and Selma Railroad. From Dalton to Rome, his transportation was worthless, because the Dalton and Selma Road is uncompleted between these two points. As the soldier had no transportation on the State Road, the Conductor exacted, from the soldier, the fare to Kingston, where he connected with the Rome train. The Conductor, under the rigid rules of the Road management, had no discretion in such matters, but must get the money, or a ticket, or put travelers off.

It was the soldier's misfortune that he had received a wrong ticket, but the conductor was not responsible, and the road could not have collected the fare on the ticket for the Selma Railroad.

The soldier was very defiant, and finally reported the matter to a gentleman on the train, who, thundered into the conductor with fierce wrath for this mere discharge of instructed duty.

The conductor asked the gentleman who he was; he replied that he was Gen. Tillottson, of the United States army, and he ordered the conductor to pass the soldier anyhow. Quite a hot dispute ensued, in which this dictatorial personage made sundry threats of putting the State under martial law for the continuance of this resolute conductor, and in which also he commented savagely upon the rebellious spirit of this people, that he meant to take down a peg or two.

The conductor had the nerve to stand true to his duty; and the matter was settled by the soldier paying the fare.

The little incident is not without valuable teaching. It shows the capricious insolence and arbitrary despotism of a military regime, such as is wickedly sought to be substituted over our State in the place of a government of regulated laws. It shows how poor a chance we would stand for a fair adjudication of our rights, under the rule of the bayonet. It shows what wild work irritable men in power, would play with the interests of others, with whom they might be angry. It shows how ready, petty functionaries, untrammeled by legal restrictions, and free to do their will, would be to ride rough-shod over any obstacles to their imperial whims.

STATE CORRESPONDENCE.

FORSYTH, GA., July 9, 1869.

Mr. Editor: Your very courteous agent, Col. Acton, was in our town again this week, and I am glad to say, added a goodly number of names to your large list of subscribers, in our town and county, to your paper.

THE CONSTITUTION is a sterling journal, and I am proud that it has so nobly braved the political waves, whose relentless fury threatened its destruction. It is the organ of *our* party, in Georgia, and as it is published at the Capital, should receive the hearty support of all advocates of right against wrong, of foes to Radical dictation and military usurpation over the people, and their dear bought civil rights.

Forsyth is a live place, and the untiring energy of her people will soon place her in the front rank of the inland towns of the South. With every facility to enhance her progress—good health, good water, and good schools, she will soon be able to vie with any town with a commensurate population in the land.

The new hotel, the Pye House, which, by the way, I see advertised in THE CONSTITUTION, but recently opened, is already doing a flourishing business, and will continue to add interest to our town, so long as that faithful caterer, Camp, continues in the culinary art, to delight customers. Visitors say that his fare is unsurpassed this side of the Atlantic Cable.

Messrs. J. G. Greer & Bro., who, also, advertise with you, in connection with the Collier Boys, of the McIntosh House, at the Indian Spring, keep an excellent Livery Stable here, and run a coach and hacks to the Spring. They are courteous gentlemen, and all can be accommodated who wish to go to the Spring, or anywhere else in the surrounding country.

The Commencement Exercises of the two Schools here—Hilliard Institute, for boys, and Monroe Female College—have just terminated. The pupils of each school deserve the highest praise, and none should be personated, as has already been done, nor prizes awarded, for each are entitled alike for their proficiency.

We have had an abundance of rain throughout this section, and corn and cotton crops are as good as they can be. The farmers are in high spirits, and every one is buoyant at the good prospect of a mighty influx of greenbacks next fall, but not of the *kind* that Postmaster Turner, of Macon, has been having distributed to the good people of Atlanta.

Col. Acton went over to the Spring a few days ago, which fact I like to have forgotten to mention, and we think his *delicate frame, and feeble looks*, will be sadly benefitted by the healthful water of that favorite resort. More anon.

Educational Notes—Stilesboro' Annual Examinations—Points of Excellence—Communications Solicited.

Procuring a conveyance from the livery of Moon & Collins, at Cartersville, whose elegant establishment makes the necessary visits to the Nail Wert state quarry a pleasure, we had a delightful ride through, perhaps the most striking scenery in Northern Georgia, to Stilesboro. This little village, nine miles South-west of Cartersville, boasts a first-class school, at present under the efficient administration of Prof. C. C. Collins. The present status of this academy, is not surprising when one regards the lists of educators with whose work it has been favored in the past. Such men as Cunyers, Seals and Ryals, have put the academy upon a flourishing basis, from which Mr. Collins has erected his present superstructure. The school is in a healthy and delightful location and presents an aggregate attendance of sixty-eight.

Of the examination during the last three days, we may particularize the recitation in English Grammar, exhibiting ease and rapid and facile handling of false and complex Syntax, the recitation in Composition and Rhetoric which was almost perfect and the exercises in Physical Geography in Virgil.

This school, founded in 1856, moved into its present commodious quarters in 1859, and can point to a good record in the past. It deserves more, than the local support it receives, and that it would have, were it less retired.

With this "note" we conclude our hasty tour of the State and, although we may publish farther items from time to time, yet these will come as we receive them from educators. To that end we invite communications from our educators, to be addressed to "Earnest," Educational Correspondent of THE CONSTITUTION, Chattanooga, Tenn.

We propose, during the months of September and October, to visit our institutions again, and witness their work during the opening months of schoolwork, as we have now, during the closing ones. In the series of letters which may result from those interviews mistakes may occur, as they perhaps have, in the series just closed. But we hope they will be characterized by the general accuracy and justness of statement an impartial public has awarded to these.

Meanwhile, it is to be hoped that our teachers will encourage, by their presence and active co-operation, those schemes of improvement in our system, which will be inaugurated at the fourthcoming convention of Teachers, to be held in Atlanta.

EARNEST.

Georgia News.

From all parts of the county we learned that the crops were suffering for want of rain. In some places there has not been a good season for about six or seven weeks, and the prospect for a corn crop is very gloomy. We understand that wheat has taken a sudden rise in consequence of the dry weather.—*Elberton Gazette.*

NEGRO ROUTE AGENT.—Postmaster General Creswell has appointed one Louis M. Pleasant, a buff colored individual, Route Agent between this place and No. 12, on the Albany and Gulf Railroad, vice L. C. Rice, (white man.)—*Bainbridge Sun.*

The Sun says Bainbridge is growing in population—babies coming in numbers.

OUR CORN PROSPECTS.—We learn from our country friends that the copious rains of Friday afternoon extended over a large district. It came in the very nick of time and will save hundreds of bushels of corn to the plantations it watered. The corn crop in this section is now beyond harm and to the land planted, there will be a fine yield. It will also greatly help cotton, which was beginning to lag.—*Columbus Sun.*

General Bragg and family are at Warm Springs, Meriwether county. Business dull. Corn and bacon selling on time.—*Ibid.*

A WONDERFUL ESCAPE AND DELIVERANCE.—The Rome Courier, of the 7th inst., has a communication addressed to it, in which the writer says, that "the community about Hamilton, Tenn., were much excited at the reported deliverance last week, of a human being, from a cave where he has been confined for 371 days. *He was alive!* But when found by Dr. Thurston, he was the most helpless object, perhaps, ever seen in the shape of humanity. He was without hair or teeth, and could neither speak nor articulate. A faint cry, or moan, was all the sound he could make. He had been so long in the Egyptian darkness of the cave that his eyes could not bear the light of day. How he got there, or what sustained life, during this long period, we are yet to learn. He is now rapidly gaining strength, and we hope will, before long, be able to give an account of himself.—*Atlanta Intelligencer.*

The Intelligencer does not add the usual "both mother and child are doing well." Does it yet fail to see the point?—*Savannah Advertiser.*

Chas. A. Beabody, of Columbus writing to the Columbus Enquirer, says that he raised six hundred bushels of the Ramsdale Swedish Oats on ten acres of land. The variety is rust proof.

STRANGE FREAK OF NATURE.—Col. T. C. Sullivan, of this city, has in his orchard a peach tree, which sprang from the clingstone species, and has always borne fruit in keeping with its species until the present season. It now bears a peach resembling in size, shape and color its usual fruit; but, strange to say, of the clearstone species. Only occasionally a clingstone is found on the tree; and we now have one of each species taken from it. Can anybody give the why's and wherefore's.—*American Courier.*

NEW OFFICERS OF THE ROME RAILROAD.—W. S. Cothran, President. Directors—Alfred Shorter, John P. King, D. S. Printup, John A. Johnson, Warren Akin, D. M. Hood.—*Rome Commercial.*

ATLANTA.—We paid a flying visit to Atlanta, yesterday. The Supreme Court is still in session, and is likely to remain in session as long as the late Georgia Legislature did.

Business seemed to be quite brisk in the city, and things generally seemed to be on the improve.

We called at the *Intelligencer* and CONSTITUTION offices, and find the quill drivers of the above institutions in good health, quite cheerful, and gentlemen of the first water. It was the first time we had met Col. Avery, of THE CONSTITUTION, He was somewhat younger, than we imagined him to be, but still, we find him old in thought and ideas, and have every reason to believe will be an honor to the chair editorial.

We tender Col. Whitaker, of the *Intelligencer*, our thanks for courtesies shown us while in the city.

We had a long conversation with Col. Geo. N. Lester, Home Immigration Agent, and learn from him that the chances for a large influx of population in this State, the present fall and winter, is quite promising. His office is in Atlanta, on Whitehall street, near the Railroad crossing.

While we were sitting in the car, waiting for a start to the mountains, an extra train came in on the Georgia road with about five hundred of Augusta's dusky sons and daughters on a pleasure excursion to the Gate City. We noticed several white women among them, who we suppose were New England school mams. How degenerate—how debased! Five or six delicate females crowded in a car with all kinds and classes of negroes, dueing a ride of 200 miles on a hot day. Hamilton must have been in demand. But to see these women standing about with a lot of buck niggers, waited upon, and the courtesies of Atlanta extended to them by a committee of unwashed Africans—and to see them the invited guests of some one of these darkies, fills the chapter, and we close.—*Rome Commercial.*

As for the Legislature having pledged itself to abide by the decision of the Supreme Court, it is simple nonsense. It has no right to yield one jot or one tittle of its Constitutional prerogatives.—*Washington Gazette.*

We are pleased to learn that the President and Board of Directors of the Atlantic and Gulf Railroad Company are about to push the immediate extension of their road to Columbus, Ala., the starting point of the South-Eastern Alabama Railroad.—*Bainbridge Argus.*

We have recently traversed the entire line of the Georgia Railroad, and judging from what we saw by the way—the crops between Milledgeville and Warrenton are at least 25 per cent ahead of any we saw.—*Hancock Journal.*

The Waynesboro Sentinel has changed hands. C. T. Belt is now the editor.

Our contemporary, the Columbus Sun, in alluding to the case of the woman arrested for passing counterfeit notes—the case in which Turner was said to be concerned—says that, as usual, the Atlanta papers had shown a want of enterprise in getting up the facts.

We do not believe that our contemporary would do us an intentional injustice.

We gave the particulars of this transaction the day it occurred, with that regard to accuracy that we always try to use. We did not fall into the error of giving the particulars of Turner's arrest, because there was no such fact to state.

The local columns of all of the Atlanta dailies are a very faithful chronicle of city matters. THE CONSTITUTION has a local editor that is very active, and if our cotemporary will observe his side of the paper, it will find his duties well done.

Our contemporary sometimes fails, unintentionally we know, to acknowledge our enterprise. For instance, it does not credit us with getting up Mr. Grant's report on the West Point and Columbus Railroad. We would not have alluded to it, but we do not think the reflection on our activity deserved, and would like to see it corrected.

THE ENGLISH NOBILITY.—*The Way it is Degenerating.*—It is unfortunate for the peers that just at the present moment so much discredit should have been thrown upon their order through the self-wrought misfortunes of some of the noblest (by name) among them. The unhappy death of the Marquis of Hastings, followed by a sweeping bankruptcy that has left all his tradespeople in the lurch; the selling out of the Duke of Newcastle under the sheriff's writ; the reckless career of the Duke of Hamilton, promising a similar termination; the ruin of the Earl of Westmoreland, whose goods are now in possession of the bailiffs; the publicity given to Lord Gordon's case, who seeks to recover damages against the officers of the law because they made their way into his apartments in one of the royal almshouse palaces, as his lordship claims "in contempt of the Queen," and actual occupied and sold for debt, all his worldly belongings; the unfortunate *exposé* in yesterday's law proceedings of the forgery of several promissory notes charged to the second son of Lord Westbury—these and several similar instances well known to the world are naturally to assist in lodging the nobility and hereditary legislators of Great Britain with that reverence and respect to which they mainly trust for the continuance of their special privileges even in this age of progress and enlightenment. If honest John Bright had any vindictiveness in his composition he might well be content to leave time to work out his revenge upon those who, in the midst of their corruption delight in making him the mark of their slanders and abuse.—*Cor. N. Y. Herald.*

AN EDITOR'S LETTER

—TO—

DR. J. M. FOSTER,

[*Offices in Empire Block.*]

CURE OF CATARRH,

FROM D. W. RAY, ESQ.,

Associate Editor of the Jackson Citizen, formerly Editor of the Rochester [N. Y.] Democrat, late of the Editorial corps of the Advertiser and Tribune, of Detroit, Michigan.

SIR:—Your favor of recent date, making inquiries as to the effect of your treatment in my case, was duly received. In reply to your questions, I would say that I was seriously afflicted with an aggravated Catarrh for a number of years past, discharging a thick, offensive, disagreeable mucous from my head almost constantly. At night, or when lying down, it was most annoying. When lying upon my back the thick mucous would drop down my throat, causing labored breathing and great distress and uneasiness, which rendered my nights restless and fatiguing. My throat was soon implicated in the general disease, and subjected to long and alarming attacks of soreness, which lasted for months together, during each returning winter. My general health was very much impaired, and the depression of spirits consequent upon my failing strength, while the undermining of my former vigor of health, caused the serious apprehensions. I tried remedy after remedy, "Catarrh Cures," and "Catarrh Snuffs," without number, but all to no purpose. My suffering grew worse, with every succeeding winter, until I began to yield all hope of being relieved. At last, the fame of your skill and success in treating such disorders reached me, and happily, I placed myself under your treatment.

With every sentiment that the deepest feelings of gratitude can inspire, I now frankly acknowledge my thanks for your *successful treatment of my case.* Indeed, the relief has surprised me, and in every way exceeded even my most sanguine hopes. Under your treatment, my suffering melted away as by a charm. My head is clear, my throat is well and natural, my general health sound and robust, my spirits buoyant, and in fact, Doctor, I was never better in my life. I must not forget to confess that you have had much to contend with, beside my disease alone, for my editorial duties made me, necessarily, neglect the regular attendance to the treatment that I felt it should receive, and yet, notwithstanding my negligence, your system of treatment has done for me what no medicine has heretofore done, and I cannot speak in terms of praise too high to recommend you to those who suffer from this most disgusting and loathsome disease.

While connected with the Rochester Democrat, I learned of many cures that you effected while there, in the winter of 1863-'64. I also know of many in this State, and can, consequently, speak of you thus fully from knowledge of other cases than my own.

In conclusion, let me say that should you desire to refer to me at any time, you may do so without hesitation, and I shall most cheerfully reply to any letters, deeming it a duty no less to yourself than to those who are afflicted, and to whom I may be a guide in directing them to the same source from which I derived such substantial relief.

Hoping to hear of your continued success, I remain, sir, truly yours,

D. W. RAY.

From Wm. Peters, Esq., of Dayton, Ohio.

DR. FOSTER—*Dear Sir.*—Noticing the fact that your patients report to you by letter the progress of their cases, under your most admirable system of treatment, for deafness and catarrh, allow me to add my name to your list of references, for benefits received. I had been seriously afflicted with chronic Catarrh above eight years—suffering the most intense headache, with confusion of memory, while my head was completely stopped up every morning, and my mouth filled with a most disagreeable taste. Beside all this, my appetite and bowels were irregular, and my general health much disturbed and debilitated. It was in this sad condition, I placed myself under your valuable treatment only *four* weeks ago, and now I rejoice to say that my bowels and appetite are regular; I can breathe freely through my head; my headache has disappeared; my memory is improved, while my general health is so far restored that I can scarcely realize my remarkable change for the better, nor too strongly advise those who suffer to apply to you at once. Truly yours.

The Expelled Members--The Other Side of the Question.

We have given the full argument against reseating the expelled negro members of the Legislature. We have copied the letters of Mr. Stephens, Judge Fleming, Mr. Hillyer, Mr. Crawford, Col. Akin, Judge Underwood, Mr. Harden, Mr. Lloyd, and Gen. Lawton—all against it.

We have given Judge Cabaniss' letter, taking ground in favor of their restoration. We had clipped out Judge Speer's letter, to the same purport, but unfortunately have mislaid it.

We have been requested to present this side of the subject in full, in order that our readers may have the benefit of the whole argument *pro* and *con*. We do this with pleasure, for the cause of truth. While our own opinion of the question, as a legal point, is against the power of the Legislature to reseat the expelled members; yet, the arguments for that measure may be conclusive to others. We hold that a public journal should present all sides of a great issue fairly, as a matter of news, and that truth may be elicited, while the editor can frame the policy of the paper in the editorial columns.

It will be remembered that the opponents of reseating the expelled members claim that the Legislature is a Court, so far as it sits upon the eligibility of its members, and that a member's right once having been adjudicated, is a *res adjudicata*, and irreversible.

On the other hand, it is claimed, that the Legislature is not a Court, save when it acts as a tribunal of impeachment—that not being a Court, save in this one thing, it is in no sense governed by the rules that govern Courts—and, therefore, the principle of *res adjudicata* does not apply.

Again, it is claimed that, not only does the principle of *res adjudicata* not apply, but the spirit and reason of that principle do not hold, and the reason ceasing, the law, based upon that reason, ceases also. The reason of the principle is, that there must be an end of litigation between parties, for the good of the community, and hence, when the rights of the parties to a suit have been solemnly settled, it must be final, for this great ground of public convenience, and to stop endless disputes over the same thing. But, say these gentlemen, parties claiming seats in the Legislature are not parties litigant in the legal sense of the word, they are the recipients of a public trust, elected by the people, and it is not simply a question of their rights, but of the wishes and privileges of the citizens of a county, who are not parties before the Legislature, and, therefore, not bound by the decision, and hence the decision is not final.

But, the corner-stone of the legal reasoning of these gentlemen is this, and we have not seen this argument presented by any of the papers, or writers, that have taken this side of the subject.

The clause of the United States Constitution, which makes each House the judge of the qualifications of its own members, is followed by another clause, using these words—"*Each House may determine the rules of its proceedings.*"

This puts the Legislature above law and precedent; makes it supreme in every sense; makes it a law unto itself, bound by nothing it chooses to disregard, and subject to legal provisions from no source. Hence, if it chooses to unseat and reseat a dozen times, it can legally do so, under this section allowing it to make its own rules.

While the Constitution of Georgia does not contain this clause, yet it, by parliamentary usage, is entitled to the power expressed in said section.

Under this reasoning there is absolutely no legal bar to the restoration of these expelled members, if the Legislature choose to reseat them.

We have meagerly presented the points, but we give them for their intrinsic weight.

We have discussed the subject solely from a legal point of view. There will be, probably, some months before the question will be acted on by the Legislature. The issue is a grave one. Times are changing daily. We know not what an hour may bring forth. The query arises, what is the course for our legislators to pursue? We think their duty is plain. Don't make up your minds now. Don't commit yourself to any line of policy. But hold your views; study the subject carefully; give it the benefit of an honest, impartial, exhaustive investigation, and come to the next session of the General Assembly free to give an enlightened conscientious decided and unhesitating arbitrament. Above all things guard against any hasty, ill-considered expression of opinion, that may be, hereafter, a serious stumbling block in the way of your free decision.

This is our counsel to members of the General Assembly who have the grave issue in their hands.

☞ The news from France, indicates that Napoleon is going to abandon his despotic policy, and open up a wider range of privileges to his people. He has taken alarm at the late riotous manifestations of popular discontent, and proposes to soothe the general dissatisfaction by removing the cause.

It is an experiment not without hazard. There seems to be an element in the French character, that can not use moderately the boon of liberty; and freedom restlessly runs to license.

☞ The monument erected to the memory of Fitz Greene Halleck, the poet, was dedicated on the 8th, in Guilford, Conn. A poem was read by Holmes, and an address delivered by Bayard Taylor. Taylor pays this merited compliment to Halleck:

"However our field of poetic literature may bloom, whatever products of riper culture may rise to overshadow its present growths, the memory of Halleck is perennially rooted at its entrance.

OUR MARKET REPORT.—Our Atlanta papers have not given the attention to the market reports that the important matter deserves. THE CONSTITUTION will devote especial care to this subject hereafter, and our merchants will find extended and carefully prepared reports, daily, in our columns. This feature will be a valuable one.

☞ The Washington correspondent of the Baltimore Gazette thinks that the diplomacy of Grant's administration with reference to Cuba, is moulded with a view to the purchase of that Island by the United States. Northern Snobbery.

In the last number of the New York Home Journal, we find such items as these, that are not altogether without social significance.

MATRIMONIAL ENGAGEMENTS.—The following are officially announced in society:—Mr. Abner Colgate, of Riverdale-on-the-Hudson, is engaged to Miss Blake, daughter of Stephen M. Blake, Esq., of No. 31 West Twenty-sixth street.

There is a rumor in metropolitan society, apparently well founded, that Mr. Harry Stone, of Messrs. John Monroe & Co., bankers, Paris, is engaged to Miss Mamie, second daughter of ex-Collector of the Port, Henry A. Smythe. Mr. Stone has long been regarded as a most eligible "match," and Miss Smythe is well-known in this city as a lady of beauty and accomplishments. The wedding, we are informed, will take place in Paris during the month of September.

MOVEMENTS IN SOCIETY.—Mrs. James Gordon Bennett, of No. 425 Fifth Avenue, has, we learn, recently returned from her lengthy residence in Paris, and once more graces New York fashionable society.

Mr. Daniel Le Roy and family, No. 20 West Twenty-third street, will, as heretofore, spend the summer in Newport.

Brigadier General Lloyd Aspinwall and family, No. 33 University Place, have retired to their country seat, in Tarrytown, on the Hudson, where the popular chief of the Fourth Brigade expects to devote his leisure hours to important military matters.

There appears to be an unusual amount of desperate flirting going on at West Point, this summer. Either the smooth-faced cadets, or the gorgeously dressed ladies, must be unusually attractive.

It is a very un-democratic state of society that thus apes those follies of the European nobility, which have been the theme of American satire for years. It shows the steady drift of Northern manners to that condition that has emboldened such ventures as the "Imperialist."

The invasion of the domestic circle by the sycophantic Jenkinses of the press, the daily chronicle of individual matters, that only a prurient fondness for notoriety, would delight in seeing made public, the publication of marriage engagements, the discussion of the eligibility of this or that gentleman or lady as a "match" for fortune hunters bent on wedlock, the petty details of private purpose or movement, all constitute a class of matter that the correct and simple tastes of our republican manhood have excluded properly from public journalism.

And the advent of such subject matter into our papers, shows both a degeneracy in the society that tolerates it, and a lowering of the dignity of the press that will resort to such journalistic usage.

Our Northern neighbors evidently hanker for aristocratic privileges in their full measure—including the silliest of newspaper flunkyism; and according to our extracts from the Home Journal, the press is proving as complaisant a tool as needs be.

It is probably is one of the rewards of social distinction, for which the leaders of the *ton* work night in results ambition, to be thus toadily chronicled in the very comedy of detail. But it is a morbid out-cropping of the growingly false social system North, and cannot but be deprecated by those who wish well to our institutions, and to whom a purer, simpler social status would certainly show a healthier tone of domestic sentiment among the people.

We are thankful that nothing of the sort hath yet reached our sunny South, and want it all kept from our borders.

Monroe Female College Commencement.

For The Constitution.

Mr. Editor: Commencement-time never grow old. From our matriculation to our graduation, our interest in the exercises increases. And when our personal participation in its duties cease, it is always refreshing to live over again the agreeable past with those who are just completing their preparation for the active duties of life. With such feelings we attended the examination and commencement of Monroe Female College, at Forsyth, Ga., beginning on Friday, the 1st of July, and terminating on Wednesday night, the 6th.

The examination of several classes with the freshmen exhibition occurred on Friday. When all acquitted themselves with credit. It would be invidious to draw comparisons.

On Sunday the 3d, the Annual Commencement Sermon was delivered by Rev. G. R. McCall, of Huntsville, from Prov. xxxi: 10, "Who can find a virtuous woman? for her price is far above rubies." He shows, first, that there are two grand agencies by which the world is governed. The first of these is power. It is divine in its origin: The powers that be are ordained of God. Yet it is limited to external acts. The legislative can only frame laws, the judiciary interpret, and the executive enforce them. This power is limited in its duration. It is confined to the lifetime of the officer. Whilst the second grand agent of control is also divine in its origin, it is unlimited in its extent and duration, and is ever active.

Which of these agencies is woman to employ? She can not use power because the Bible forbids it, nor will her physical organization permit her to don the armor of Mars, whilst the sentiment of all properly enlightened mankind forbid it. Evidently then, her agency is influence because it is so important and all controling, embracing the whole of life from the cradle to the grave, and extending like the widening circle of a pebble dropped into a placid lake, into eternity. She moulds the man for heaven or hell.

The characteristics of this influence, are to be exhibited in the submission of woman, to her position without any sense of degradation. She only is degraded, who thinks herself so.

The second characteristic or qualification to exercise this influence, is to be secured by her education—the training of the mind and body to fulfill her high destiny. She is recreant to her nature, who impairs her body for the performance of all its functions, through a foolish obedience to fashion.

It is also shown in the self-denial of woman to promote domestic and social happiness, in her fortitude to endeavor physical as well as mental anguish to carry out a great principle. This was happily illustrated in the devotion of Mary at the cross.

We might extend these remarks still further, and yet not be able to lift our readers to the enthusiasm with which the whole audience was inspired as the rator would burst forth into some sublime strain, showing that, indeed, the price of the virtuous woman is above rubies.

On Monday the examination was continued. The exercises were closed with rhetorical reading by the Sophomore class. On Tuesday, after the examination, the Junior class read original compositions. At night the proficiency of the pupils in music, was exhibited by Professor Bechter. These exercises varied from the simplest ballads by beginners to the performance of the most famous operas, in true operatic style, with combinations on the piano, for six players on three instruments, at one time. "La Marseillaise" was sung with fine effect by the whole French class. On Wednesday, the 6th, July, the Commencement proper, was opened by the reading of a salutatory in French, by Miss M. Asbury, and one in English, by Miss S. Peeples. The second honor had been divided between those two young ladies. After the reading of seven or eight other essays, by the young ladies, to whom the audience gave appreciative attention, the valedictory was delivered by Miss L. Willingham, in such a feeling manner that there was not a dry eye in the class, and most of those on the rostrum were moved to tears.

The audiences were then entertained and instructed by Col. C. Peeples, of Griffin, in a well-timed and appropriate address from the last words of a distinguished New England statesman, "I still live." He was happy to say that after four years of great trial, mental anxiety and unnecessary provocation by our Northern cousins, that "we still live."

But do we live as if we accepted the situation? Whilst commending cheerfulness and hilarity—which are necessary to enable us to endure the ills of life—do we live as we should in the exercise of the *labor* that has fallen alike to the lot of both sexes? Do we exercise the economy which is necessary to restore prosperity to our desolated fields. Do we accept the situation, and wear our home-spuns as we did during the blockade? This is essential, if we would live free from the tyrant debt, and dot our own water courses with manufactories and machine shops. After developing the subject in its varied relations, he made a most happy allusion to living again, as he was, surrounded by friends of "lang syne," and yet enjoying, with heartiness, the buoyant anticipations of the youth before him, to whom he gave some most admirable advice, showing his appreciation of the sex, and proving the correctness of his motto, as it should be exhibited in their lives.

At night Col. T. H. Hammond, of this place, delivered the Oration before the Alumnian Society of the College. It was replete with wisdom, rich in wit, chaste in style, and exquisite in delivery. It could not but find acceptance with the fair hosts, who made him their Orator for their first reunion; since war and desolation had swept over our land. With an elegant supper by the Alumni, terminated the most interesting Commencement that has ever been held by this time-honored institution.

Commerce of Savannah.

The following tables, compiled from the books of the Custom House, show the imports and exports of Savannah, for the fiscal year just closed. Taking into consideration the shortness of the crops, of all kinds, in 1868, the exhibit is a gratifying one, showing, as it does, a progressive growth of Savannah as a public mart and seaport:

BUTTER.—In the regular butter trade, butter is divided into two general grades—the yellow and the white. The yellow is the higher, the white, the inferior standard. In general terms, the best yellow butter comes from New York State; Chenango, Chemung, Chatauqua, St. Lawrence, Lewis and Delaware counties being the principal butter-producing districts. The inferior and white butter comes from the West; Ohio, and especially the Western Reserve sending the greatest quantity and the best quality. That from the Western Reserve has greatly improved in quality of late years, so much so indeed, that a considerable proportion of it brings prices nearly equal to those of New York State butter at the opening of the Fall trade.

The difference between the yellow butter and white is, that the former is produced from grass, and the latter from hay. The first yellow butter of the year comes to market early in May, when the cows are turned out to grass. The supply of this new butter continues to arrive for about six weeks, or till the middle of June, when it ceases. The farmers continue to make butter, of course; but, instead of shipping it to market, they lay it away in their dairies. This is because the weather has, by the middle of June, become so warm that the butter cannot be shipped without suffering great deterioration *en route*. In the latter part of September, or the first of October, the butter-makers send their accumulated stock forward again, and the market is once more supplied with yellow butter. The cows having, by this time, returned to hay for the winter, the butter that is afterward sent forward is white. The fall stock of yellow butter is generally exhausted by January, and from that date until the new butter of May is received, people must be content with white butter. [*New York Tribune.*

HOW GEORGIA SHOULD ACT.—We are sorry to see a portion of the Georgia press so exceedingly anxious to reinstate the negroes in the Legislature, right or wrong, lest some terrible Yankee calamity shall come upon us. Why the mass they can do is to reinstate them for the time and how much worse off shall we be? Our political *status* will be the same, and in the former case we shall have preserved our dignity and self-respect. We hope Georgians will give a deaf ear to all such timid counsels. It is to their *interest* to do what is legal and right, and we have reason to believe there is a returning sense of justice, even in Congress, that will save them from harm.—*Savannah Republican.*

ASSOCIATED PRESS DISPATCHES.

DISTRICT OF COLUMBIA.

WASHINGTON, July 12.—Judge Chase has ordered a hearing of the application for a writ of *habeas corpus* in the Yonger case, now under trial in Mississippi by a Military Commission, for the killing of Col. Crane, at 11 o'clock, on Wednesday. Chase has ordered a notice of the hearing to be served upon the Attorney General. Judge Chase is a lawyer, and has no discretion in the matter. The first point to be argued will be jurisdiction; that decided affirmatively the merits of the Military Commission will be argued, because the Judge will not grant the writ if he decides, unless the facts alleged in the petition would enable him to discharge the prisoner; in other words, Judge Chase will not have the prisoner brought from Mississippi only to recommit him to the custody of the Commission. In this branch of the hearing, the recent opinion of Hoar, in the Weaver case, comes up for review and adjudication, and a decision on the constitutionality of the past Reconstruction acts authorizing military trials in the present condition of the country will be given.

Judge Louis Dent addresses a letter to J. L. Wofford and A. L. Jenks, responding to a letter tendering Dent the nomination of the Conservative Republican party of Mississippi for Governor, wherein Dent says, "If I can in the least be instrumental in restoring the State of my adoption to her normal place in the Union, and securing to her a good, loyal administration you have my permission to use my name for any position within the gift of the National Union Republican party of your State. The platform adopted by your Convention at Jackson, on the 22d of June last, I most heartily approve and endorse."

The Howard Asylum, of Georgia, for aged and infirm negroes, has been organized; Jacob R. Davis, President, Wm. P. Edwards, Vice-President, and seven Directors.

Revenue receipts, to-day, nearly one million dollars.

The President departs, Thursday, for Long Branch, to be absent two weeks.

The Conservatives of Texas and Mississippi have little hope, this evening, of securing an election earlier than the last of November.

Nothing pointed has transpired regarding Governor Walker's interview with Grant, beyond a non-committal cordiality.

The President appointed Geo. T. Lewis, Collector of Customs, at Cherrystone, Va., Isaac Strait, Appraiser of Merchandise, at Savannah, Ga.

Robeson, in responding to his New Jersey friends, said, regarding Grant's administration: As the policy by which the rebellion was finally subdued, was the policy of action rather than profession, so the policy of the present Administration, under Grant, must be judged by its fruits—with no startling amendments, with no professions of splendid policy. The administration of Gen. Grant endeavors, quietly, persistently, and honestly to perform each day the duties which each day finds before it.

RICHMOND, July 12—Official election returns, so far, show that the blacks voted closer to their registered strength than the whites did. The less intelligent blacks who had been under the belief, during the canvass, that if the Walker ticket succeeded their rights would be taken away from them, and who were assured by Wells, in a speech on the day before the election, that a victory for Walker would be no victory, as the election would have to be held over again, are not generally disposed to accept the situation. Yesterday afternoon, a Walker negro was set upon by a colored mob, on one of the public promenades, and had to be rescued by the whites.

The Northern Press on the Virginia Election.

Virginia has vindicated the wisdom of the policy proposed by General Grant and sanctioned by Congress for perfecting reconstruction. The ordeal is all but ended, and the title of Virginia to take its place among the reconstructed States as a member of the Union is practically established.

The triumph of one set of men or the defeat of another set, is important chiefly in relation to the affairs of the State. To the country the result has a broader and deeper significance. It is marked by the ascendency of liberal and conciliatory views, and by the defeat, with the help of colored votes, of those who counseled proscription and hate. And it is a promise that in due time Mississippi and Texas will tread the path marked out by the President and join Virginia in finishing the work laid down by Congress.—*N. Y. Times.*

This result will prove good or ill, as the victors shall decide. There are too many among them who have experienced, as yet, yet learned little since 1860. If these should gain control of the State administration, they will soon run it self. Much will depend on the wisdom and tact of Governor Walker, who is a new man in politics. We hope he may evince discretion, and may be able to impart it to his allies. His position is one of great difficulty, and will thoroughly tax and test his ability and his patience.—*N. Y. Tribune.*

It is evident enough, therefore, that, by practically accepting negro suffrage, the Virginia Democrats have nullified and destroyed negro influence. They have liberated themselves from the position of an isolated and impotent minority to one of commanding power. They are a majority of the power that controls the politics of the State; whereas, by pursuing a different course, they would have surrendered this advantage to the negroes. They have a Governor who can not disregard their wishes; a Legislature that will elect two United States Senators not unacceptable to them; and Virginia will be represented in the lower branch of Congress by Conservative members. To gain these great advantages, the Virginia Democrats have made no real sacrifice; for negro suffrage could not have been prevented if they had opposed it ever so stoutly.—*N. Y. Times.*

Now, the lesson to be drawn from this Virginia election is, first, that by pursuing a similar course to that of the sensible Virginia Conservatives the responsible whites of every Southern State, from Virginia to Texas, may secure possession of the State, and in doing it secure the necessary balance of power to settle questions. Thus, within the short space of a single year, we may have an end to the South of Southern radical carpet-baggers, operating by Southern negro supremacy. Secondly, the Democracy of Virginia, ex-rebels mostly, if you please, lamenting the "lost cause," have made an example, in the way of a forward movement, which would, if adopted in the North, be rewarded with similar results. They have abandoned their old party notions, and have fought and beaten the Radicals with their own weapons. They have recognized several fixed facts, and they have accepted the negro as a welcome ally and turned him to a good account. In a word, the Conservatives of Virginia have developed a new party organization, which, if followed up by the anti-Radical element throughout the Union, may soon give it the dominant National party of the future.—*New York Herald.*

The conduct in this crisis of the once arrogant and powerful, but now humbled and placable chivalry of the Ancient Dominion is worthy the serious consideration of both parties elsewhere. They yielded to the exigencies of the situation with a good grace, and faced the music with a courage worthy of Gettysburg and the Wilderness. They welcomed to the ranks their colored fellow-citizens, applauded orators as black as Erebus, voted *with* negroes and *for* negroes, and actually secured seats in the Legislature for men who only five or six years since, were sold on their plantations. By this sign they conquered?

If Hunter Seldon, and the whilom lords of Virginia, will now depute Walker and Hunnicutt to visit this city, with instructions to grace the gaudy Indian who keeps watch and ward over the portals of St. Tammany, and infuse a little liberality and wisdom into his wooden head, or still better, to put a negro warrior in his place, the Democratic party may by-and-by be able to display on a much broader theatre, the policy now inaugurated with so much success in the most influential of the late insurgent States.—*N. Y. Sun.*

THE RESULT IN VIRGINIA.—The tight-skinned section of the Radical party is in a terrible pucker about the "result in Virginia." They say there were several of the more intelligent "colored brothers" who didn't vote as they were told; and that, if the blacks are to be permitted to vote as they choose, they may as well "give up," or fall back on the Chinese. They have no hope in white men, trembling hope in blacks, and now they are going for China, cues and all. Another thrashing, well laid on, and they'll go for their father, to whom they should have gone long ago, and with whom may they ever remain.—*N. Y. Democrat.*

☞ The King Cotton of Savannah, was beaten by the "Annie of Brunswick, by half a second.—*Sav. Republican.*

☞ Mrs. Norton believed that tears were considered woman's most potent weapon; therefore she proposed that the women should go around snivelling for the right to vote.

SOUTHERN SECURITIES.—Tennessee, ex coupon, 63¾@62; do., new, 68 asked; Virginia, ex coupon, 58 asked, do., new, 61a62; Georgia sixes, 80 asked; North Carolinas, ex coupon, 57a57½; do., new, 50½ asked; South Carolina sixes, loan, 65a67½; Missouri sixes, 83a83½; do., St. Joseph's, 99 bid; Louisiana sixes, 68a70; do., levee sixes, 66a66½; Alabama sixes, 62½a65; do., eights, 91a97.—*Herald, 7th.*

BEARDED WOMEN.—A bearded woman was taken by the Russians at the battle of Pultowa, and presented to Peter I., 1724. Her beard was one and a half yards long. The great Margaret, governess of the Netherlands, had a long, stiff beard. Mademoiselle Bois de Chene, born at Geneva in 1834, was exhibited in London and this country some years since. She had a strong, black beard. Such instances are rare. The female advocates of woman's rights are, as a general thing, destitute of beards.

GEORGIA TEACHERS' ASSOCIATION.—The next regular meeting of this body will be held on Wednesday, the 11th day of August, in the City Hall, Atlanta, at 10 o'clock, A. M. All teachers in the State, whether members of the Association or not, are invited to attend. H. H. TUCKER, President.

A SCIENTIFIC WONDER.—A newly invented article has just been exhibited, which is enough to make one think that the days of wonder are not yet gone. It is a Milk, whose use transforms the most deplorable complexion, to one of almost alabaster smoothness and pleasing whiteness, keeping the skin delightfully cool during hot weather. This exquisite beautifier is known as "Milk of Violets," and promises to take the place of poisonous toilet powders. Sold by all druggists, and fancy goods dealers. V. W. Brinckerhoff, N. Y., general agent.

UNPRECENTED SUCCESS.—Within the past year, fifty thousand boxes of DR. TUTT'S VEGETABLE LIVER PILLS have been sold, and not a single instance is known where they have failed to give satisfaction. If you would enjoy life, have a fine appetite and robust health, use these pills. july8-d1w

THE DAILY CONSTITUTION.

ATLANTA, GEORGIA :::::: JULY 13.

THE FUNERAL OF W. M. HILL.—Uncle Billy Hill, will be buried this morning. We trust that our citizens will turnout en masse to pay due respect to his memory. The Masons will meet, at their Lodge Room, at eight o'clock, and accompany his remains to the Cemetery.

REMOVED.—Mssrs. Rice & Mitchell are removing their lumber yard to the rear of the First Baptist Church, on Luckie and Cone streets, where they will be glad to meet all their old friends. Call and see them.

W. WOOD & CO.—Messrs. W. Wood & Co., undertakers and upholsters, have removed next door to Redwine & Fox's warehouse, on Broad street, near the Post-office. They will be happy to have their old friends call and see them.

H. P. PHILLIPS.—The live senior partner of the firm of Phillips & Crew, leaves to-day, for an extended tour through the Eastern States. We trust that he may pass through "Bosting" with morals untainted, and retain his pocket book among the blue noses and return safe and sound "right side up with care—keep dry."

THE WEATHER.—The following was the state of the Thermometer inside Redwine & Fox's store yesterday: at 9, 86: 11, 89½; 2, 94; 6, 93.

HEAVY MULE TRADE.—Last week, O. H. Jones, sold seventeen head of mules to Messrs. Grant and Alexander, at $230 each, or $3,910.

It will be seen by advertisement in another column that Gen. W. S. Walker has resigned the agency of the Atlas Life Insurance Co.

We are informed that his entire time is now reqired in superintending the manufacture and introduction of the Railroad Station Indicator, of which important and popular invention he is part proprietor.

ADJOURNED.—In consequence of the death of W. M. Hill, T. B. Boggus has adjourned his Magistrate's Court over until 3 o'clock this evening.

REAL ESTATE SALES.—On Saturday, Wallace & Fowler sold a lot on Peters street to John F. Morris, for $200; and one to John F. Morris and Mike Rogan for $240 50. Yesterday A. W. Mitchell sold a lot on Lloyd street, next to Jones' stables, 48 feet front, 110 feet deep, to O. M. Jones, for $2,745, cash.

RETURNED.—The efficient Secretary of the State Agricultural Society, Hon. D. W. Lewis, has returned to the city, after a brief absence in the interests of the society. He informs us that the crops in old Hancock, are better than any where in middle Georgia; that Dickson, will eclipse all his former crops, and that even the crops of the widows are remarkably good.

FULTON COUNTY, July 11.

Mr. Editor: I fully endorse the nomination, by "Hall," of Gen. Anderson for Superintendent of the Air-Line Railroad, but I am fearful that the Georgia Road will not be willing to be deprived of his services. But, if he can be obtained, it will add much to the interests of the road and the people of Atlanta.

WIDE AWAKE.

A BURKE COUNTY SCANDAL.—A correspondent of the Augusta Chronicle, writing under date of Waynesboro, Ga., June 29th, says:

A rich case of *scan. mag.*, which has been the talk of the people here for some time, and which, yesterday, assumed a singular phase, by the sudden death of one of the parties, is the subject of much speculation in the little town of Waynesboro, this morning.

The story—a true story, too—runs as follows:

About the close of the late war, there was a Mrs. J——, living in the lower section of this county. She was considered a lady of refinement, and known to be wealthy. She had, a short time before, lost her husband. She allowed a Dr. G. to take up his abode under her roof. This Doctor is a married man, and the father, I believe, of four children. Nevertheless, he leaves his home, which he seems finally to have abandoned, together with his wife and children, and rumor has it that he and the young and rich widow lived as husband and wife, he taking possession of her houses, lands and cotton bales, driving fine horses, and living in an extravagant style.

Such open-faced infamy was a little more than the good people of the neighborhood could bear with patience, and they repeatedly endeavored to procure testimony with which to take the case before the Grand Jury. But the difficulty of getting sufficient evidence to convict, prevented these good intentions being carried out. So things went on. The people talked and blamed, but nothing could be done. The abandoned wife of G. leaves her home and children, and, driven to despair by the bad conduct of G, plunged into unknown vices, and became an outcast. Yesterday the community was startled by the announcement of the death of Mrs. J., the rich widow, by poison, and it is said G. took enough of the tea, that poisoned her, to make him very sick, but not enough to dissolve his tenement of clay. He is convalescent, and it is thought will recover. No man knoweth, yet various are the surmises and reports in regard to the affair. It is believed that G. will come on the stage next with wife, deed, etc., of the young widow. *Nous verrons.*

☞ The editor of the Wisconsin Banner says: "We lately got a letter addressed 'Rev.,' another the 'Hon.,' another 'Col.,' one 'Mr.,' and the last 'Esq.' On the way to dinner we accidentally stepped on a woman's train, and she addressed us thus: 'You brute.'"

SOMETHING ABOUT NEW YORK EDITORS. *To the Editor of the Chicago Republican:*—I see an article in your paper from a New York newspaper, which belongs to that class of articles that form the basis of most of the gossips concerning the New York press. Here is one paragraph:

"Mr. Hassard, assistant managing editor of the Tribune, is 32 years of age, and a native of Ireland; Kane O'Donnell, foreign editor, 33; McConnell, city editor, about 35; and Barney Gallagher, assistant, 28—all Irish. McAlpine, of the same paper, is 27; and the late managing editor, John Russell Young, not more than 30."

Mr. J. R. G. Hassard is not a native of Ireland. He was born in New York city, and about 31. Kane O'Donnell was born in Philadelphia, and is between 27 and 28. James McConnell was born in Philadelphia. He is 28. J. R. Young is 28. Mr. Gallagher's name is Barclay, not Barney. Mr. McAlpine is 31 or 32, and is not on the Tribune. Mr. Bennett, the younger, is between 26 and 29. Mr. Currant is not managing editor of the Times. The Times has never had that office. D. Wood is at least 50, and Mr. Howard, I presume, is nearly that age.

Of the leading journalists, I would say that Mr. Greeley is 58; Mr. Bennett, 73; Mr. Bryant, 75; Mr. Dana, 61; Mr. Marble, about 40; Mr. Raymond, 48; Mr. Brooks, about 50; Mr. Stone, about 55; Mr. Hastings, 45; Mr. Bonner, 47; George Wilkes, 60; and Mr. Tilton, 35. I am, etc. A. D.

☞ We have watched the course of so many distressed, emaciated and forlorn dyspeptics, of worn-out and prostrated females, who have taken a new lease of life and gradually received vigor, strength, health, and the power of social pleasure from the effects of PLANTATION BITTERS, that we are not surprised at the Testimonials daily received. It is a pleasure to do good in the world, how feel must be the measure of the Proprietors of these celebrated Bitters.

Sugar, crushed and granulated 19; clarified 18; New Orleans 16a19. Corn meal 1 30a1 35; oil meal 5 00 per barrel of 200 pounds. This meal is growing in favor as food for cattle.

Local Freights.

The arrival of local freights is light.—Arrived at the State depot this morning, 1 car load wheat, 1 car load corn, 1 car load tobacco, 1 car load salt, 21 tierces and five casks of bacon.

Dry Goods Market.

There is a full stock of Dry Goods on hand, with a fair demand. We quote Threads at 2 10; Osnaburgs, 20 to 24; 4-4 Sheetings, 15 to 15½; 7-8 Shirtings, 14 to 14½; Pacific Prints, 12½; Sprague, 13½; Allen, 12½; Ladcaster, ——; Wamsutta, 9½; Amoskeag, 12.

Grain Market.

Wheat, light stock and fair demand, at 1 25 to 1 60. Corn very scarce, and many orders unfilled—heavy demand. 1 25 to 1 30. Oats, light demand, 90 to 1 00.

Hardware Market.

Stocks ample with light demand. We quote Swedes Iron, 8 to 9; Horse Shoe, 7 to 8; Round and Square, 5 to 10; City Mills Bar, 5 to 6; Pittsburgh Bar, 6; Nail Rod, 11 to 12½; Band, 7 to 8; Nails, 4s to 60s, 6; 3s, common, 7; 3s, fine, 9.

Drugs and Medicines.

Stocks ample; moderate demand, at unchanged prices.

Leather Market.

Stocks full; demand fair, at moderate prices.

Country Produce.

The country people being engaged in their crops, are not bringing in produce to any large extent. Eggs bring readily, fifteen cents per dozen. Butter, in good demand at 30 cents per pound. Half grown chickens 15a25 cents each. Onions, 2 00 per bushel. The drought has seriously affected the gardens, hence the supply of vegetables is not as ample as usual. The supply of green corn, tomatoes, squashes, cucumbers, and other articles from other cities, still continues full. The market is well supplied with watermelons and fruits. Good sized melons bring from 50cal 00 each. The supply of peaches is small.

Lumber Market.

There is an ample stock of lumber on hand to meet all present demands. The demand continues good. The large number of new buildings now going up will cause Atlanta to be a good lumber market for some time to come. All classes of framing lumber bring readily, 20 00 per M; all plank (green) 22 50 per M; weather boarding, 22 50; flooring, tongued and grooved 32 50. Shingles, pine, drawed, 3 00 per M; sawed, 6 75a8 00 per M. White Oak wagon timber, 30 00 per M. Walnut 90 00.

Tobacco Market.

The stocks of tobacco are large and ample, and dealers are doing a brisk trade at 50a60 cents per pound for low grades; 55a 65 for medium, and 1 10a1 25 for choice.

[OFFICIAL.]

EXECUTIVE DEPARTMENT, ATLANTA, GA., July 8, 1869.

To the Principal Keeper of the Penitentiary:

WHEREAS, At the May term of the Superior Court, held in and for the county of Bath on A. D. 1869, Henry Miller and Abraham Screven were severally tried for, and convicted of, the crime of burglary in the night time, and were then, and there, therefor, sentenced, each, by the Judge presiding at said Court, to be imprisoned in the Penitentiary of this State for and during the term of five years; and

Whereas, it appears from a careful examination of the testimony adduced upon their several trials, that the conviction was founded solely upon the insufficient testimony of one Allen Williams, who testified only as to having seen the accused near the place of the burglary, in possession of property alleged to have been stolen, and whose testimony fails to establish the fact, that the accused entered, or broke into, the store from which the goods are alleged to have been stolen; and

Whereas, it further appears from said testimony, that the accused established an *alibi*, by the unimpeached evidence of several witnesses; and

Whereas, also said Allen Williams, upon whose evidence the accused were convicted, has, since their conviction, made the following affidavit, to-wit:

"STATE OF GEORGIA—CHATHAM COUNTY:

"Before me, Robert J. Wade, a Justice of the "Peace, in and for said county and State, perso- "nally came and appeared, Allen Williams, col- "ored, of said county, who on oath saith, that on "the 17th day of May, 1869, at the May term of the "Superior Court, Chatham county, he gave testi- "mony, as a witness for the State, against Henry "Miller, colored, and Abraham Screven, colored, "both tried and convicted of the offence of bur- "glary: Deponent further saith, that the testi- "mony which he gave on said trial, was *not true*; "but that he was compelled to give the same by "threats, and under the punishment of being "*starved to death*, for that one *William Wray*, a de- "*puties officer* of said city, did say to this deponent, "when he was *arrested* and *imprisoned* in the *Pe- "nities Barracks*, that he, deponent, must testify to "the facts which he did give upon the trial of the "said Miller and Screven, and upon failure so to "do, he, William Wray, would starve him, and "send him to the Penitentiary; and deponent fur- "ther saith, that he did not receive anything to "eat for one day and a half; and on account of "such treatment he was compelled to give the tes- "timony which he did; and deponent furthe "saith, that on the night of the alleged burgla- "he was not with, nor never saw, the said Miller "and Screven, and, therefore, *does not know who "committed the burglary*; and deponent further "saith that he comes before me and makes this af- "davit voluntarily, and without being advised "or threatened so to do; and that he makes this "affidavit because he feels he has done an injus- "tice to the said Miller and Screven, and there- "fore invokes upon a Just Providence to forgive "him of one of the most unfortunate acts of his "life.

His
ALLEN X WILLIAMS."
Mark

"Sworn to, and subscribed before me, this 21st "day of June, 1869.

"ROBERT J. WADE,
"Justice of the Peace,
"Chatham County"

And Whereas, It is made known to me, that a motion for a new trial was made by the counsel for the accused, upon the ground that the verdicts of the juries before whom the causes were tried, were contrary to evidence, and decidedly and strongly against the weight of evidence, in that said verdicts were not sustained by the evidence, alleged before said juries, the State having failed to prove the guilt of the accused, and that the Judge presiding at said Court, refused said application for new trials:

Now, therefore, in consideration of the facts and circumstances aforesaid, and to the end that injustice may not be done to the innocent and the guiltless, It is

ORDERED, That the said Henry Miller and Abraham Screven be, and they are hereby, fully and freely pardoned of the crime of which they stand convicted; that they and each of them, be restored to their civil rights as citizens of this State, and that they be forthwith discharged and set at liberty.

Given under my hand and the Seal of the Executive Department, at the Capitol, in the city of Atlanta, the day and year first above written.

Fulton Superior Court, May Term, 1869.

PRESIDING, His Honor JOHN D. PRESTON.

F. F. Tabor, vs. Adaline P. P. Tabor. } Petition for Divorce; Rule to Perfect service.

IT appearing to the Court by the return of the Sheriff, that the defendant does not reside in said county of Fulton; and it further appearing that she does not reside in this State, it is therefore, on motion of plaintiff's counsel, ordered, that the defendant, Adaline P. P. Tabor, do appear and answer at the next term of said Court, else that the case be considered in default, and the plaintiff permitted to proceed. And it is further ordered, that this Rule be published in some public gazette in this State, once a month for four months.

L. H. BRADFIELD'S COLUMN.

DR. J. BRADFIELD'S

FEMALE REGULATOR,

Woman's Best Friend

THIS valuable medicine is prepared for WOMEN exclusively, and to be used by WOMEN only. It is adapted especially to those cases where the woman is disordered, and will cure any irregularity in the "monthly visitor," except it may require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the system, usually brought on by cold, dampness, or like cause, it acts like a charm, by RESTORING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach." Rushes of heat about the face, chilly sensations, fainting of the eyelids and general restlessness. Taken in time, all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils in the constitution of the woman. The ness "runs" comes around and there is no "show" of health, the "whites" will appear. There will be a peculiar appearance about the women, but very little to note it. The pale and fluid escaping, the countenance becomes sallow, bowels, swollen, a sort of clouded caste about the face, constant dull aching pains in the head, weight in the loins or stomach and back, wild or wasted whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, languor, aching across the loins, loss of appetite, pain in left breast, tightness across the chest, cough and giddiness. If still allowed to go on "green sickness" will be fully developed—the headache becomes severer, with loss of memory, nothing seems pleasing, STOMACH, dyspepsia so reddish for food, loss of flesh, increased fluttering of the heart, SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes SUFFOCATING SENSATIONS, almost SUFFOCATION. The skin is flabby and a "dingy hue." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45, who are brought to the verge of the grave by ignorance or neglect to take the proper remedy. To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly visitor," we cordially say TAKE DR. J. BRADFIELD'S FEMALE REGULATOR. A few ounces taken you will at once experience its benefits, and a faithful perseverance will be fully rewarded.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia. We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN and to be used by WOMEN only.

DR. J. BRADFIELD—Dear Sir: I take pleasure in stating that some time previous to the late war I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Shop Store, West Point, Ga. She had been suffering severely from suppression of menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used with equal success, on a servant girl, by my brother in law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and seemed to rally, up to the time of "freedom," I do not hesitate to indorse your preparation for the purposes for which you recommend it.

Yours truly, JNO. C. WHITNER.

THE DAILY CONSTITUTION.

ATLANTA, GEORGIA :::: JULY 11

June Days.

Oh, rare June days,
Haste down thy fragrant ways,
Let all thy breezes fan me as they pass;
Let thy soft air be sweet
Nor shallow mor sun-shower
Break the deep spell of thy delightful again:

The bloom of falling years,
The flight of starry spheres,
The glad return of birds upon the wing;
The ramblers of the sea
Are not so dear to me
As thou, O June, upon thy pleasuring!

But wherefore should I care?
Be it foul or fair,
The June that made sweet June will not return;
It faded down my sky,
A pallid ghost, while I
Listen and wait, and wish a long anguish years.

Listen, that I may hear,
In lowlinges of the year,
Some whisper of the summer-time long spent;
Saying, "Beyond the reach
Of human thought or speech,
It blossoms still. O heart, be then content!"

City and Suburban Affairs.

PERSONAL.—Col. R. J. Moses, of Columbus, and Col. J. R. Stevens, of Rome, are in the city, stopping at the United States Hotel.

SMITH'S RAPID RENOVATOR.—Our Reverend friend, Sam Smith, of the Cartersville Express, has discovered a fine renovator for old suits—of clothes, not law suits—in strong ley soap. Aw-ful-lie strong indeed must it be to turn an old hat into new.

SATURDAY.—Last Saturday was quite a lively day at Stone Mountain, there being over one thousand persons enjoying its beautiful scenery and pure water.

LITHONIA SUNDAY SCHOOLS.—Lithonia has two excellent Sunday Schools—Baptist and Methodist—about one hundred strong each, under zealous and able Superintendents. The scholars are most excellent singers, and we think, will bear the palm off over any other scholars in this section in that line.

UNION POINT SUNDAY SCHOOL.—The Sunday School, from Union Point, that visited Stone Mountain, on Friday last, won golden opinions from all classes by the correct demeanor and quiet bearing to and from that point, as well as while there. Few schools have a better reputation.

QUERY?—What gentleman was it, at Johnson's Museum, who "stuck fast" to a tarred board? Did he carry off the board, or leave part of his pants sticking to it?

DEATH OF UNCLE BILLY HILL.—We regret to announce the sad fact that Uncle Billy Hill breathed his last, on last night. Over eighty years of age; having lived in Atlanta from her inception to the present, and in this section nearly all his life; he endeared himself to a host of friends. We drop a tear to his memory, and suggest that when he is consigned to the grave in the morning, the stores and places of business be closed, in respect to an old citizen; and that all turn out and accompany his remains to the Cemetery. To his afflicted family and relatives, we tender our sympathy and condolence.

Wales—Justin McCarthy on the Future King of England—Albert Edward Sifted.

From the Independent.

Enter, if you please, with me, just for once, the stalls of the Royal Italian Opera, Convent Garden, London. Let us suppose—it may be essential to our present purpose—that Mdlle. Pauline Lucca is the principal songstress of the occasion. Look at that large box on your right—and, of course, on the left of the stage. It is full of people. In the front are two or three young women in very, very low-necked dresses. In front, also, is one young man. He has a large, fair, fat face, with heavy features. His fair hair already thinning; there is even a suggestion of baldness about it. He is a very dull looking young man. If he were of your class or mine, people would say he was a stupid, vulgar-looking person. He displays an immense shirt front, on which presently (and when Mdlle. Lucca is not singing) his heavy chain descends. Is he lost in reverie? Has the music borne away on its wings his enraptured soul? No! The heavy young man is asleep.

One of the young women by his side gives him a gentle, pleasant push and laughs; and he opens his eyes, raises his head off the vast shirt front, and, being like most fat persons, rather good humored, he also laughs. But if the principal singer does not come on soon again, he presently falls into another doze. He is a great admirer of some singing, however. He is enthusiastic about Lucca, claps for her, waits to the very last to see if she is called before the curtain, and has evidently a very high appreciation of her gifts and genius. The lady with the bright eyes who sits near him was very pretty once; but a long attack of illness has, true to say, made sad work with her beauty. The other girls have nothing to boast of. I think the lowness of their dresses is the thing one most remarks about them. But the young man—did you ever see anything heavier and stupider than that fat, rather handsome face? Well, he is England's future king; he will one day, if unkind fate does not interfere, be Albert Edward the First. He is the Prince of Wales, and he come with his wife and sisters to hear the singing of the saucy, spoiled, gifted little lady from Berlin, who once had the honor of being photographed in one coat with the great Count von Bismarck himself, to the immense and utterly groundless alarm and indignation of some of the Court's more pious admirers.

The Prince is very fond of the theatre—not the dull, solemn stage, where high classic tragedy, Shakspeare and that sort of thing, may be seen; but the bright, small theatres, whose audience consists much more of men than women, while the performers, on the other hand, number far more women than men. These are the places which the Prince of Wales most frequents—and where, of course, the Princess never goes. There he does not drop asleep. His mind is not overtaxed. His eyes are pleased. The actresses are generally dressed as pages, or else wear clothing so scant that it hardly amounts to anything; and an edified public reads every other day the Prince of Wales last night visited this, or that little theatre, and saw Miss Godiva or Mademoiselle Toutenue in some of her favorite parts. While the Princess of Wales was suffering in her long, long illness, the Prince went very often to these pleasant places of entertainment. That, constant watching and nursing wearies a man very much; and, of course, he needs a little relaxation.

WOMAN'S RIGHTS AMONG THE BIRDS.—On the whole, there seems to be a system of women's rights prevailing among the birds, which, contemplated from the standpoint of the male, is quite admirable. In almost all cases of joint interest the female bird is the most active. She determines the site of the nest, and is usually the most absorbed in its construction. Generally, she is more vigilant in caring for the young, and manifests the most concern when danger threatens. Hour after hour I have seen the mother of a brood of blue grossbeaks pass from the nearest meadow to the tree that held her nest, with a cricket or grasshopper in her bill, while her better-dressed half was singing serenely on a distant tree, or pursuing his pleasure amid the branches. *Atlantic Monthly, for June.*

BAD FOR ALL THE SOUTHERN CARPET-BAGGERS.—The Virginia election. It tells them that their reign is over and their time has come.—*N. Y. Herald.*

☞ Isadore, youngest daughter of General Albert Pike, was found dead in her bed at Memphis yesterday morning. She had retired complaining of nervous headache, and from an empty chloroform bottle found beside her, it is supposed she had used it to soothe the pain, and in her sleep had upset the bottle upon her pillow.

☞ Consignments and orders solicited.

Messrs. ADAIR & BRO., Atlanta, Ga.—GENTLEMEN: We received yours a few days since, requesting a statement of the merits of the Gullett Gin purchased of you last year. I have to say, of this Gin that it is decidedly the best Gin of which we have any knowledge. The workmanship of the ginning is very superior, every part of it being made with great care, and the brushes and belts set in a case from frame, admitting of no springing or working. It runs with a smoothness and rapidity seldom attained in such machines. The improvements of this Gin are: 1st, it takes the dirt and trash out of the cotton. 2d, by means of the steel brush wheel, combs out the lint, and renders the fibre much longer than the ordinary Gin, or at least makes the cotton show a much longer fibre. These two improvements gives cotton ginned on this Gin a fine advantage in the sale of 1½ cents per pound. In fact, cotton of the same kind ginned on the ordinary gin, and when the cotton in the seed is very trashy and dirty, or contains a great many hard locks, it will add more to the market value of the lint. We could perceive no difference between the draught of this Gin and the old one we replaced by it of the same number of saws. The Gullett Gin certainly deserves the attention of planters.
Very respectfully, J. C. & E. GARLINGTON.

SIMMONS' LIVER REGULATOR OR
Medicine for Dyspepsia, Headache, Costiveness, Camp Dysentery, Sick Headache, Chronic Diarrhœa, Affections of the Bladder and Kidneys, Fever, Nervousness, Bilious Diseases of the Skin, Impurity of the Blood, Melancholy or Depression of Spirits.
Most of the ailments here enumerated have their origin in a diseased liver, which is the most prominent affection in this country, and as in many cases the patient is not within the reach of a physician, it requires that some remedy should be provided that would not in the least impair the constitution, and yet be active and safe. That such is the character of the SIMMONS REGULATOR there can be no doubt, which the testimony of hundreds will establish.
SYMPTOMS OF A DISEASED
LIVER.
Pain in the side. Sometimes the pain is felt under the shoulder-blade, is mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness, bowels in general are costive, sometimes alternating with a relaxed. The head is troubled with pain, accompanied with a dull, heavy sensation. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although satisfied that exercise would be beneficial to him, yet he cannot summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred when few of them existed, yet examination of the body after death has shown the Liver to have been extensively deranged.
It should be used by all persons, old and young, whenever any of the foregoing symptoms appear. It is a purely vegetable compound, is not injurious to the most delicate constitutions, and will keep the liver in healthy action if used properly.
Persons living in unhealthy localities may avoid all bilious attacks entirely by taking a dose occasionally to keep the liver in healthy action.
Regulator
For children complaining of colic, headache, or sick stomach a teaspoonful or more will give relief. Children, as well as adults, eat sometimes too much supper, or eat something which does not digest well, producing sour stomach, heart burn, or restlessness. A dose will generally relieve. This applies to persons of all ages.
Many persons, from eating too much, are restless at night, or in day time sleepy, wool-gathering, can't understand what they read, can't keep their thoughts on any one subject so as to reason well, or become fretful. One or two tablespoonful will give relief.
Caution.—Take enough Regulator after eating a meal to produce one full action from the bowels every day.
Pregnant ladies will find sure relief from their headache, costiveness, swimming in the head, sour stomach, restlessness, etc., etc.

DR. HUNTER
CONTINUES to treat all private diseases. Syphilis in all its forms, Gonorrhœa, Gleet, Stricture, Orchitis and all urinary diseases. All cases of nufcury are completely eradicated; Spermatorrhœa or Seminal Weakness, resulting from self-abuse or other causes, and which produces some of the following effects: as blotches, bodily weakness, lack of energy, constitution becoming society, unquietness, dread of future events, loss of memory, indolence, nocturnal emissions, and sadly prostration of the vital powers, can be fully restored to health. Persons afflicted with this or any other delicate complaint, before undertaking constitutional complaints, should give the Doctor a trial. He never fails.
The Doctor publishes a medical circular that gives a full exposition of venereal and private diseases, which can be had free of charge by mail for one stamp. It gives a clear delineation of all the diseases and conditions resulting from the infringement of the moral laws, excesses, indulgences, exposures, and imprudences in married or single life. Every one can examine his instructions to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others, daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is considered to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own Laboratory, under his personal supervision. Medical consultation at office free or by mail for two stamps. No matter who has failed, send what you have. Office No. 183 Third street, between Green and Mount streets, near the Postoffice, Louisville.
Office hours, 9 A.M., to 7 P.M. Sundays, 10 A.M. to 12 M.
